

Amethyst Class Homework

Autumn Term 1

Due in by October 11th

Think carefully about how you get to school and the journey that you take.

Produce a map of how you get to school.

This could include a detailed sketch with symbols to represent the different features along the way such as residential houses, recreational buildings or areas such as the Springfield centre and skate park etc.

Include a colour coded key.

This can be done on any size piece of paper or card and could include photographs, 3D models or drawings.

You could include some writing to accompany your map.

The title for this project is: My route to school
