

Rocks and
soils/ States
of Matter

What am I?

- What is the water cycle?
- What can you change?
- What are the differences between rocks?
- How are rocks formed?
- How are fossils formed?
- Am I a solid liquid or gas?
- What happens to things that are heated?
- What happens to things that are cooled?
- What is a reversible change?
- What is an irreversible change?
