Conclusions

From the 76 parents that took part in this survey the evidence suggests that the largest majority are happy about how their child is progressing at Regis and with the way in which the school is run.

The only minor concern is with question 6 that refers to "appropriate amount of homework" and that 6% of parents that did not know the appropriate amount of homework for their child. However this is clearly laid out in the homework information given to all parents when their child starts school and is available on the schools website.
