

# Design Technology: *Resistant Materials*

Sentence starters	Key words/phrases	
The product requires...	<i>...dovetail, housing, bridle, cross halving, mitre, haunched tenon, varnish, wax...</i>	<i>...so that... ...because... ...to enable...</i>
The product should be able to...	<i>...hold, store, retain, carry, contain, open, withstand, resist, support, organise, separate, store...</i>	<i>...due to the fact that... ...however...</i>
The product must have...	<i>...smooth, neat, presentable, accurate, efficient, durable, safe, rigid, sturdy...</i>	<i>...to ensure... ...therefore...</i>

# Design Technology: Product Evaluation

Sentence starters	Key words/phrases	
<p>The product successfully... / fails to...</p> <p>The product easily manages to....</p>	<p><i>Joints, finishes, strength, storage space, hinges, balance, durability, materials?</i></p>	<p>...so that...</p> <p>...because...</p> <p>...to enable...</p>
<p>After testing, the target market suggested...</p> <p>Once examined...</p>	<p><i>...Aesthetics? Price? Functions? Eco friendly? Size? Safety? Shape?...</i></p>	<p>...due to the fact that...</p> <p>...however</p>
<p>The client concluded that...</p> <p>He/She felt / realised...</p> <p>The product struggles to...</p> <p>Later trialling shows...</p>	<p>Ease of use? Looks? Performance?</p>	<p>...to ensure...</p> <p>...therefore...</p> <p>...as a result...</p>

# Design Technology: *Research Planning*

<b>Sentence starters</b>	<b>Key words/phrases</b>	
Looking at existing products....	...I will be able to learn about....	...this will help me...
Knowing what my target group likes...	...I can find this out by...	...I can use this information to...
Understanding materials and manufacture means...	...the key stages are...	...when designing I must...

## Design Technology: *Product Analysis*

Sentence starters	Key words/phrases	
In comparing, I can see that....	...this suggests...	...I can use this to...
I particularly like...	...this is more successful because....	...I could adapt this by...
The common features I must include...	...else...	...this is important since...

# Design Technology: *Products Specification*

Sentence starters	Key words/phrases	
For the solution to be successful it must...	...ethically sound... ...ergonomic... ...fulfil its function of... ...appeal to... ...make use of... ...incorporate... ...utilise....	...to ensure... ...because... ...this guarantees that... ...so that... ...to enable...

# Design Technology: Textiles

Sentence starters	Key words/phrases	
The fabric I have chosen .....	<i>Is suitable because....</i> <i>Is not suitable .....</i> <i>Could be improved.....</i>	Of it's properties, such as.... By the addition of ....
The components are suitable for the product, Because.....	<i>Of their position /on a seam/ curved edge/ flat surface/</i> <i>The colour/ size of the component.</i>	This will enable the product to ....
The decoration is suitable because.....	Of it's position on the product..... The style is..... The techniques used.....	Correct size. Suitable for end use Linked to the theme

# Food Technology

Sentence starters	Key words/phrases	
I started by.....then I....	Assembling....creating....modelling.... aerating....binding....shortening....blast chilling....caramelisation....coagulation.... enzymic browning... emulsification.... enrobing.... gelatinisation....plasticity.... fermentation....dextrinisation....	In addition....in spite of....next....it would....furthermore....besides....pre viously....moreover....also....because... .so that....as well as.... and....then....this meant ....too
I am really pleased....I like it because it reflects....	Task....attributes....balanced diet....Eat well plate....cook / chill....design specification...product specification....research findings or analysis....guideline daily amounts....dietary reference values.... opinions of other's....consumer need....sensory attributes....	I think that....reflects....another idea would be too....next time....this particular idea.... reminds me of....i like because....makes me feel....its almost as if....what I like about this ....portrays....signifies....gives the impression that....of all the ideas I have drawn.... suggests that....reinforces....it could be that....it satisfies the specification
Clearly this is the best idea therefore.....	Annotation....aesthetic.... communication....consistency.... product analysis....scaling up....target group.... describe....discuss.... examine....outline....illustrate.... prove....define....	Obviously....significantly....least of all....it would....surely....especially....in particular....moreover....clearly....un doubtedly....indeed....as well as....above all.... therefore.... notably....too

Food Technology: Compare and Contrast Design Ideas

Sentence starters	Key words/phrases	
<p>My first design features..... and looks really effective</p>	<p>Foams....espuma....gels....sols.....  suspensions....emulsion....garnish....  decoration....pH....pasteurisation....  standard component.... synerisis....  sterilisation....  retrogradation.... glazing....sous vide....</p>	<p>Although....likewise....however....neverthele  ss....as long as....but....unlike....just like....  yet....whereas....by  comparison....instead....in the same  way....unless....still....compared to....in spite  of....despite this... .similarly... .even so....on  the other hand.... except.... though....even  though....while....in contrast....  otherwise....alternatively....apart from....  equally....similar to....nonetheless</p>
<p>This sketch has met the criteria listed in the specification for instance.....</p>	<p>Prior knowledge....quality  assurance....quality control....  questionnaire....social, moral and  cultural....working properties and  functions....sensory descriptors....</p>	<p>For example....illustrated by...this can be  backed up by....such as....because....the  evidence to support this is....for instance....  meanwhile....as shown by....in the case of....</p>
<p>At first I made...., next I....</p>	<p>Dough....pastry....sauce....roasted....  steamed....boiled....grilled....fried....  whisked....folded....sieved....kneaded....  incorporated....baked....mousse....cake...  gel....coagulated....set....pickle...chutney</p>	<p>At first....at length... .eventually....  later....until....after....next.....soon....from  that point.... meanwhile.... ultimately...  .earlier....lastly....finally....  secondly...before....</p>

## Food Technology: Product Evaluation

Sentence starters	Key words/phrases	
When evaluating the product.....	Fair testing....hygienically....assemble.... making skills....Computer Aided Design.... nutritional analysis....organoleptic testing....sensory testing / profiles.... ranking test....rating test....difference test....test kitchen....	In conclusion....on reflection....I have identified....it is clear that....I need to consider....I have summarised....I have found out....I have been made aware of....I was surprised by....from a different perspective....
When evaluating my work I can see that to improve in the future I must....	Finishing....higher level making skills....high risk food....reduce risk....preserve....food spoilage....cross contamination....market research....monitoring....nutritional labelling....HACCP....recycled.... sustainable....viscosity....	Adapt....change....improve....develop.... consider....build upon....increase....decrease....model.... trial....test....cater for....S.W.O.T (strengths, weaknesses, opportunities, threats)....identify....plan for....cost....practise...
Using the information gathered I can conclude that I need to ensure my design.....	Impermeable....hermetically....attributes ....E numbers....market research.... consumer....Computer Aided Manufacture....microorganism.... designated tolerance levels....shelf life....religions....special diets....	Marketable....profitable....popular.... meets my consumer's needs....specifically....targets....creates.... flexible....adaptable....focussed....applies ....niche....competitive edge....unique....sustainable....realistic....
