	<p style="text-align: center;"><b>The Hero Twins</b></p> <p>Later, they were man-reptiles to their goddesses but now possessed many powers of the gods. One power was that they could kill things and then revive them. This impressed the Lords of Death who asked the twins to perform the trick on them. Seeing their chance, the twins killed one of the Lords but refused to bring him back to life again. Realising at this point that the twins had won, the Lords of Death decided to lose their own souls.</p> <p>The Hero Twins set a new order of the Earth by the gods of the sky. One twin was turned into the Moon and the other into the Sun. They are the heroes that the Hero Twins brought their father back to life and turned him into the Moon god.</p> 			 <p><b>Mayan cities</b></p> <p>The ancient Mayan civilisation flourished in the southern part of Mexico and Central America once occupied by the Maya, Aztec, and other cultures. These cities were built on a plain for the marketplace, and several giant stone step pyramids. The cities were built on a grid system, with a main road from each other. There was even a single Mayan empire, but rather a widespread, interconnected civilisation. The Mayan city of Palenque, shown on the map, was one of the most important cities settled here as early as 100 BCE and the city reached its peak between 600-800 CE.</p> <p><b>2</b> <b>Quiz yourself on the Mayans</b></p>
