Thursday 4.6	<p>Answer questions based on the fables text.</p> <p>1.What is the moral of: A)The Fox and the Crane B)The Lion and the Mouse</p> <p>2.What does the queen do in the 'Princess and the Pea' to make sure the girl is a real princess?</p> <p>3.Fables usually have a good and a bad character in each story. Who do you think is the good and the bad character in the three fables you have read and why?</p> <p>4.Why do you think the lion walked slowly away at the end of 'The Lion and the Mouse'?</p> <p>5.Why did the crane decide to get her own back on the fox in 'The Fox and the Crane'?</p>	<p>Using one of the fables from the reading text or research and find your own fable.</p> <p>Plan how you might start putting the story into a playscript.</p> <p>You will need to think about the characters and where the story is taking place.</p> <p>Decide on the personality of the different characters so that you can give clear stage directions to the cast.</p> <p>Tomorrow you will be writing your playscript!</p>	<p>Today's lesson is on coordinates.</p> <p>Remember, co-ordinates always come in pairs - the first one is for the horizontal axis which is called the x axis (x goes across and x is a cross) and the second number is for the vertical axis, the one that goes up/down and is called the y axis.</p> <p>It is all explained in this lesson from Oak Academy:</p> <p>https://www.thenational.academy/year-6/maths/to-solve-practical-coordinate-problems-year-6-wk4-5</p>	<p>What is Evolution?</p> <p>https://www.bbc.co.uk/bitesize/topics/zvhhvcw/articles/z9qs4qt</p> <p>Watch the following videos and make a presentation to show what you have learnt.</p> <p>You can choose to do this as a poster, a power point presentation or by writing in your book.</p> <p>You can also include pictures and diagrams.</p>

	<p>6.Name two similarities all three fables have</p> <p>7.Name two differences all three fables have</p> <p>8.Which was your favourite fable and why?</p>
