

The same answer could be used
in both number sentences.

$$945 < ? < 954$$

$$950 > ? > 947$$

True

Either the number 948 or 949 could be used as an answer in both examples.

$$945 < 948 < 954$$

$$950 > 948 > 947$$

$$945 < 949 < 954$$

$$950 > 949 > 947$$
