

School Closure Daily Planning - Week 6 - Amethyst Class

Date	Reading	Writing	Mathematics	Topic
<p>Friday 12.02.21</p>  <p>Don't forget Mrs R's End of Week zoom meeting at 9.30am</p> 	<p><u>Infer, retrieve, summarise, compare and explain meaning</u> Mark the answers from yesterday. Read for 20 minutes to half an hour and then tell someone what has happened in your book or what you have learnt from it.</p>  <p>Research the author of your book and write down three interesting /fun facts about them.</p> 	<p><b>Spelling:</b> Have one last practice of spellings. Then get ready, it's Dictation Time!</p>  <p>Using your mind map from yesterday, answer our 10 topic questions about the Sumerians. Write out the question, then answer in full sentences below [x10]!</p> 	 <p>Finally, to finish off our learning on percentages, we are going to challenge ourselves to find missing values. <a href="https://vimeo.com/498013311">https://vimeo.com/498013311</a> It is really important that you pause frequently to make sure you have understood what is being shown to you. Take extra care with completing the table. The last question is very, very tricky. I will allow you to have a peak at the answer if you really can't do it!!</p> <p><i>Something easier...Create a poster to explain all you have learnt about percentages, include drawings and examples. Then go through the poster explaining the main points to someone in your family. Ask them to rate your teaching ability.</i></p>   <p><i>Are you PP: Perfect Professor or TT? Terrible Teacher?</i></p>	<p><b>Science:</b> Investigate uses for magnets - go through the information on the slides, answering the questions as you go. Then complete the task.</p>
