

## What is it like to be a Man on the Moon?

As a man on the Moon, you must be on time each morning and you must never miss a day at work. There are lots of jobs to do.

### **Cleaning**

You must keep the moon tidy and free of sweet wrappers, cans and crisp packets. Usually, you use a moon vacuum to get rid of the dust and dirt because this is specially made for the job of getting into the craters.

### **Entertaining tourists**

Each afternoon, tourist spaceships arrive from Earth so part of the job is to entertain them and give them something to photograph. This means doing exciting gymnastics like somersaults, handstands and even high moon jumps.

### **Selling souvenirs**

There is a gift shop to run and this sells things such as postcards, pencils and Moon mugs. A man on the Moon needs to be good at counting money.

### **Aliens**

Tourists often ask about aliens. When they do, it is important that you tell them the truth because, of course, there are no aliens!

Being a man on the Moon, is lots of fun but it is also quite tiring. If you have lots of energy it is probably the perfect job for you!
