

Rivers of the World

twinkl

Aim

- I can locate the key rivers of the world.

Success Criteria

- I can use the index in an atlas to find rivers.
- I can use a legend to find rivers on a map.
- I can tell you the place in which the source of a river is found.
- I can identify the sea a river flows into.
- I can identify key locations along a river.
- I can compare the length of rivers.
- I can compare the discharge of rivers.

What Can You Remember?

What is the source?

The source is the place where a river starts.

What is the mouth?

The mouth is where a river flows into the sea.

Where do most rivers start?

Most rivers start in high ground or in the mountains.

Do all rivers flow directly into the sea?

No – some flow into other rivers or into lakes.

Joining Together

Many rivers join up with the River Thames. They are called tributaries.

Rivers of the World

River	Source - Country/State/Area	Mouth	Countries on its course	Length (km)
Amazon				
Congo				
Ganges				
Indus				
Loire				
Mississippi				
Murray				
Nile				
Ob				
Yangtze				

Rivers of the World

Empty rounded rectangular box with three small circles on the right side.

River	Source - Country/State/Area	Mouth	Countries on its course	Length (km)	Tributaries
Amazon					
Congo					
Ganges					
Indus					
Loire					
Mississippi					
Murray					
Nile					
Ob					
Yangtze					

Rivers of the World

River	Source - Country/State/Area	Mouth	Countries on its course	Length (km)	Discharge (m ³ /s)	Tributaries
