In our weekly celebration assemblies, we continue to celebrate the learning that children complete at home. On the school website class pages, you can find lots of stimulating and exciting activities to complete to further engage your child with their learning in school and to help support the development of their knowledge and skills.

We have had a visit from Zoolab this week where the children learnt about an array of exciting creatures and built on their knowledge of: Caring for Living Things (Fox), Habitats (Mason) and Senses and Textures (Dickens).

We are very excited that Sonia from The Corsham Wind band is continuing to teach wind instruments to our year 5 pupils and there are now 8 children who attend the band outside of school which is absolutely fantastic!

Year 4 this week have started their Ukulele lessons and we very much look forward to hearing the progress that they make week on week.

Also this week, I have been very impressed by the way our children are demonstrating their learning in English and Maths, showing resilience in year 4 and 5 to learn and retain strategies for completing long multiplication and sentence work in year 1 and 2, where they have been writing about the artist Vincent Van Gogh using full stops and capital letters.

The week concluded with a delightful visit from a guide dog puppy in training who visited each class and explained the vital work that they do in supporting people who are visually impaired. As part of the dogs training programme they ask if they can visit schools- we simply couldn't resist and a wonderful opportunity for our children to learn about diversity and overcoming challenges.

Wishing you a wonderful weekend- Abby Symons
