

Welcome back to the summer term at Regis. The children arrived back to school looking smart, smiley and raring to go with their learning.

This term the focus is on **science**. The teachers have planned exciting opportunities for the children to fully immerse themselves in their topics to learn all about plants, animals and humans in KS1 and the fascinating topic of Electricity in KS2.

It is our **science week** next week, where the children will be completing different activities and challenges and will conclude with our Eco dress up day with junk modelling fun, where classes will be getting creative and working together.

As the term progresses, Fox and Dickens are visiting the Cotswold Wildlife Park to support their learning and there are many more exciting learning opportunities taking place across the school.

Wishing you and your families a lovely weekend.

Abby Symons, Headteacher

Friday 19th April 2024
