

HOMework

Millward – Autumn 2

Can you hear it?

Investigate the sounds in your house. How many different sounds can you hear in each room? List them to share in class.

Ask a family member about how sound has changed in their lifetime. (E.g. old phones, music players, street sounds)

Design a musical instrument. Can you make it out of junk modelling?

Create a sound wordsearch or crossword using scientific vocabulary.

Last term, we did Yoga and tried to move without a sound as we flowed through our yoga routines. Can you devise your own quiet yoga flow?

Make a times tables poster for the times tables you most need to practice.

Re-write the blurb for a book you have enjoyed.
