

We've had an exciting start to the summer term, beginning with a fantastic Science Week here at school! There has been a real buzz of enthusiasm, with children diving straight into a range of engaging scientific activities. Special thanks to Mrs Waugh our Science and Eco-council lead for organising the week.

A particular highlight was our Eco Council's visit to the recycling centre in Corsham, where they learnt all about the recycling process and the importance of looking after our environment. They returned full of ideas and enthusiasm to share with the rest of the school.

This term, our focus continues to be on exploring, experimenting, and discovering the wonders of the world around us. From learning how electricity works to exploring light and the fascinating world of animals, the children will engage in hands-on activities that spark curiosity and develop their scientific thinking.

We're looking forward to a term full of questions, investigations, and plenty of "wow" moments. It's already shaping up to be a brilliant summer of science!

Wishing you and your families a lovely weekend.
Abby Symons, Headteacher

Whole school 93% (23/3-27/3) Fox-96.1% Millward-92.6%, Dickens-86%, Turner-99.2%, Mason- 91%

S.A.M will be visiting Turner Class

We have two new **Attendance Ambassadors**, celebrated for their improvement in attendance and who will champion the importance of attending school every day. Congratulations to

Logan and Octavia.

Friday 17th April 2026
